SKILLS

Programming: Python, C++, SQL
Data Analysis and Statistics: Microsoft Excel, Tableau, Seaborn
Certifications: Cloud Computing NPTEL (2024) IIT KGP, Data Science and Machine Learning – Cipher Schools
Soft Skills: Problem Solving and Time Management

PROFESSIONAL TRAINING

Cipher Schools July 2024 – Aug 2024

Completed a comprehensive course on Python, Data Science, and Machine Learning at Cipher Schools, gaining a strong foundation in Python programming with a focus on data manipulation using libraries like Pandas and NumPy. The program provided hands-on experience with key machine learning techniques such as regression and classification, along with model

PROJECTS

Algorithm Visualizer January 2025

- Developed a Python-based tool to visually demonstrate sorting and graph algorithms using Tkinter.
 - Implemented Bubble Sort, Quick Sort, Merge Sort, Insertion Sort, Selection Sort, Heap Sort, DFS, BFS, and A* with real-time animations.
 - Enhanced user experience with color-coded animations, progress tracking, and algorithm comparison features.
 - Designed an intuitive GUI with adjustable parameters for array size, sorting speed, and graph structure.
- Skills: Python, Tkinter, Data Structures & Algorithms, Sorting & Graph Algorithms, GUI Development, Algorithm Visualization, Pathfinding, Graph Theory.

Diabetes Prediction Model October 2024

- Built a machine learning model using KNN, Naive Bayes, Decision Tree, and Linear Regression, achieving 87% accuracy. Gained insights into real-world healthcare datasets and their challenges.
 - Utilized Python (Pandas, scikit-learn, Matplotlib) for data preprocessing, feature importance analysis, and model evaluation. Applied data normalization and outlier detection to improve prediction reliability.
 - Attained experience in classification, model evaluation, and medical data analysis.
- Skills: Python, Machine Learning, Classification, Model Evaluation, Data Visualization, Pandas, Scikit-Learn, KNN, Naive Bayes, Decision Tree, Linear Regression, Matplotlib.

Huffman Coding Compression Tool December 2024

- Created a C++ based text compression tool using Huffman Coding, reducing file sizes by up to 50%.
 - Executed Binary tree-based encoding and decoding to efficiently compress and reconstruct text data.
 - Optimized frequency-based character encoding to enhance storage efficiency and minimize redundancy.
- Skills: C++, Data Structures & Algorithms, Huffman Coding, Greedy Algorithms, File Compression, Binary Trees.

EDUCATION

B. Tech Computer Science and Engineering	Graduating July 2026
Lovely Professional University, Phagwara, Punjab	8.07 CGPA
Senior Secondary (12th): CBSE (2022) - KVS Jalandhar, Punjab	79%
Secondary (10th): CBSE (2020) – KVS Jalandhar, Punjab	86%

EXPERIENCE

GOOGLE WORKSHOP ON MACHINE LEARNING AND CLOUD COMPUTING March 2024
Acquired valuable insights into the latest trends, advancements, and industry applications of Machine Learning.
